Dear Sir,

I am responding to your questions regarding letters you mailed to Chief H.L. Crum and Mayor McGuffey.

My position as Deputy Chief over the Criminal Investigation Division can provide the best resource for answering your questions and possibly some clarification.

In response to your letter to Mayor McGuffey dated 1-30-91, the answer is no, his office did not receive a letter from Chief Hart. However, Chief Hart did write the City Manager a letter requesting assistance.

In response to your letter to Chief Crum dated 1-30-91, the answer to your question is no, Chief Crum did not ignore any requests for assistance. However, you are very well aware of this as you were specifically aware of Detective Bender's efforts and in fact praised him between August 1989 and February 1990.

Attached are copies of the letters received from Chief Hart. Apparently, he did everything he claimed. Our lack of communication by telephone was poor during this time period causing Chief Hart to write the three letters. This was not a concern to Detective Bender as he was in contact with you during this period.

For future reference please make note of my address and phone number. I have reviewed all the documents you have provided and interviewed all the people involved from this Department. I will be the contact for any inquiries you have. This is offered in an effort to ensure any inquiries are expedited.

Sincerely,

C.R. Sager
Deputy Chief of Police
Grand Prairie Police Department
Grand Prairie, Texas

By the authority of H.L. Crum, Chief of Police
