Dear Mr. Sidney:

Regarding your letter dated 2-13-91, I will attempt to answer your questions. In reference to the letters from Chief Hart I will refer to them as January, July, and October to save time and space. As I believe both you and I have a clear understanding of which documents are being referenced.

The January letter is clearly stamped and no doubt received at that time.

The October letter had the envelope attached indicating when it was mailed. No problem on this one.

The July letter does not have an envelope and could have been the copy with the October letter. Most probably this is the case as all three were filed together.

The July letter was addressed simply to the Investigative Division and thereby could have ended up in several locations.

It is unknown if the July letter was actually received. This particular point is not relevant to me. I do know that Detective Bender was working on this case and attempting to contact you and Chief Hart in August.

Sincerely,

C.R. Sager
